

MACROAREA OF ENGINEERING

**REOPENING ERASMUS+ ANNOUNCEMENT**

**ATTACHMENT WITH RESIDUAL GRANTS**

**Departures Second Semester**

**PLEASE NOTE:** the application has to be fulfilled online on the following website:

<http://mobint.uniroma2.it/erasmus/candidatura/Default.aspx>

After the application is completed, it must be validated (chiusa) by 12 July at 12 a.m. o'clock otherwise it will be considered null.

If an application results to be false, not compliant or incomplete it shall be considered invalid. The students can make an appointment with Mrs. Rita Ricci at the Erasmus+ office if they have any doubts or need clarifications about the application before completing it.

**1. Requirements and instructions for the application**

Students who are enrolled in a bachelor course, master's degree, master's degree in one cycle, Ph.D. and in possession of the requisites indicated in the art.1 of 2019-2020 Erasmus+ announcement can apply to the Erasmus+ program.

In particular:

- a) For the purposes of the ranking, as far as students enrolled in the first year of the three-year bachelor degree are concerned, the exams taken before the end of the first semester (winter session) will be considered. If the exams taken are not registered on Delphi, they can still be added in the appropriate field specifying the denomination of the exam, marks and credits and attaching a digital scan of the university booklet in the appropriate field of upload;
- b) Students transferred from other universities must enter the exams taken in the appropriate field, adding the examination name, voting and relative credits and attaching a digital scan of the official certification stating the passing of those exams;
- c) The PhD students will have to deliver the hard copy version of the application to the Erasmus+ Engineering office if the application cannot be submitted online;
- d) Language certificates, certifications and linguistic self-certifications must be attached by uploading the related files.

No applications from students enrolled in the first year of three-year degree will be considered valid if, at the end of the first semester exam session, at least 6 credits have not been achieved.

## **2. Evaluation criteria for ranking list creation and candidates selection**

Evaluated elements are listed below:

- The weighted mean score: obtained considering the number of the credits of all exams passed and registered on Delphi within December 31<sup>st</sup>, 2018.
- Productivity: the ratio between the credits earned and the number of years passed since the year of enrolment to the Bachelor's Degree Course.

Exams passed during the Bachelor's and the Master's Degree Courses shall be evaluated together, without any distinction. Bachelor's Degree final mark shall not be evaluated. The number of full marks (30 e lode) obtained shall be considered only in the case of an equal score in the final pass-list. All courses where the marking system is not expressed in thirtieths shall be excluded from evaluation.

The final pass-list shall be divided by Degree Course. Grants shall be assigned separately by Degree Course (possible combination of similar Degree Courses shall be communicated), and choice of destination shall be made by candidates by respecting the pass-list order of each Degree Course (provided that requirements of each destination are met, both as regards language skill and level of study: PhD students, students who are preparing their graduation thesis, etc.).

As regards the following grants: École Nationale des Ponts et Chaussées, Ensta and Marsiglia (Civil Engineering), Eindhoven (Engineering Management), Lisbon, Ensta and Marsiglia (Medical Engineering), Haute École Spécialisé de Suisse Occidentale e Haute École d'Ingénierie et Gestion du Canton de Vaud (Energy Engineering and Medical Engineering), Imperial College London (Control System Engineering), Monaco (Mechanical and Energetic Engineering, Engineering sciences), final assignation is of exclusive competence of the Erasmus+ Coordinator in charge of the agreement. Grants may not be assigned if the Coordinator decides that requirements for the specific destination are not met. To this regard, students interested in the above-mentioned destinations are suggested to preliminarily refer to the Erasmus+ Coordinator in charge of the agreement.

## **3. Language skills required**

As regards language skills required for the different destinations, the grant can expect a defined level of certified linguistic knowledge.

In fact, the program is based on agreements between the hosting and the receiving University, which, in most cases, expect a specific level of language skill (A1,A2,B1,B2,C1,C2). On the basis of

the bilateral agreements, the hosting University could not accept a student that is not adequately prepared from a linguistic point of view, even after the assignment of the grant.

Therefore, the grants will be assigned with priority given to the students that already have the requested language certificate/declaration and it is attached to the application; secondly priority will thereafter be given to the students that will obtain the certificate after the announcement closing date but before the grants' assignments. Finally and thirdly, priority will be given to students that still have to achieve the necessary certification. In this case, the assignment will be subject to reserve, that is revocable from the Erasmus+ Office if the certification required is not achieved within a deadline decided by the Erasmus+ Office.

If the student cannot produce the necessary documents of linguistic knowledge within the deadline or if the documents prove to be not adequate or false, it will lead to the loss of the assigned grant which will then be assigned to the next candidate in the ranking.

The agreement might accept linguistic skill that is declared by an Institute and not necessarily certified. Whereas, if the agreement requests certified linguistic skills the certification (mandatory) has to be released by one of the Institutes indicated below:

English language:

- TOEFL (Test of English as a Foreign Language)
- ESOL (English for Speakers of Other Languages – University of Cambridge)
- ESOL (English for Speakers of Other Languages – University of Pitman)
- IELTS (International English Language Testing System – University of Cambridge)
- ISE (Integrated Skills in English – Trinity College London)
- LCCIEB (London Chamber of Commerce & Industry Examinations Board)

French language:

- DELF (Diplôme d' études en langue française – Alliance Française)
- DALF (Diplôme approfondit de langue française – Alliance Française)

German language:

- ZD (Zertificat Deutsh – Goethe Institut/ OSD)
- ZDfB (Zertificat Deutsh fürden Beruf – Goethe Institut/ OSD)
- ZMP (Zentrale Mittelstufenprüfung – Goethe Insitut/ OSD)
- ZOP (Zentrale Oberstufenprüfung – Goethe Institut/OSD)

Spanish language:

- DELE ( Diplomas de Español como Lengua Extranjera)

A self-certification from the candidate in which the student declares to be a native speaker of the language will be accepted after careful examination (it will be assigned the C2 level). The students that attend classes in English language in this Macroarea will be assigned the B2 level (English).

The stay in a foreign country, certified or self-certified, of at least 3 months for study or work purposes (for example, *Erasmus+*, *Traineeship*, *Overseas*, or other mobility projects) for students enrolled at Tor Vergata University will be accepted after examination and they will achieve the B2 level, unless they achieved more for the linguistic on line support (OLS) exam. For all the other students, it is necessary to possess an official certificate of attendance at one of the projects above mentioned.

For equivalences between the University's linguistic skills and the declaration's levels based on the QCER, refer to what is said by the Academic Centre Language (CLA):

<http://cla.uniroma2.it/idoneita-linguistica/che-cose/>.

An important innovation introduced in the Program is that Erasmus+ gives the opportunity to the attendees to develop their language skills before and during the mobility abroad. A European service of Online Language Support (OLS) was launched in 2016. This Program gives to the attendees of the mobility program the chance to evaluate their knowledge of the language they are going to use abroad, as well as to attend a free online course to develop the skills. Furthermore students interested in participating in the Erasmus+ program can attend classes eventually organized by CLA.

The linguistic knowledge level will be assigned by the Commission based entirely on the documentation attached to the application. It is highly recommended that the student attaches all the documents in his/her possession.

#### **4. Pass-lists publication, grants assignment and signature of contracts**

Final pass-lists shall be divided by Degree Course and published in the Erasmus office (Engineering) and on the website <http://mobint.uniroma2.it/erasmus>.

Students should personally check pass-list publication. No written or phone communications shall be made to students. On-line publication of pass-lists have legal value and constitute an official notice for all selected candidates.

After the rankings will be published online, a single meeting for all the Courses of the Macroarea of Engineering will be held. At this meeting the Erasmus+ scholarships will be awarded by the Commission appointed by the Rector.

Students are required to inform themselves about the educational offer of each partner University of their own interest (courses offered during the semester, etc.), by consulting the website, **before the meeting**.

**During the meeting** students shall sign the acceptance of the grant. Students who cannot participate in the meeting can delegate a third person by providing him/her with a proxy signed by the candidate and a copy of both candidate's and delegate's identity documents.

If the student or the delegate cannot take part in the meeting, the student will be considered to be renunciative. Later, the Erasmus+ grants recipients shall be called to sign the mobility agreement.

**Appeals:** Appeals should be signed and submitted on unstamped paper (no tax stamps are necessary). Reasons for the appeal should be clearly expressed. Appeals shall be submitted to the Engineering Erasmus+ Office – Mrs Rita Ricci – **within five days of the publication of the pass list on-line.**

For students selected for the Erasmus+ grant who, after signing the contract do not leave for the mobility period and do not timely submit their formal renunciation for serious reasons, art.5 of University announcement will be applied. If a waiver is received in time for a possible reassignment, the next successful candidate in the ranking list will be given the scholarship assignment, if in possession of the required requisites.

Students selected for the grant shall fill in and submit the *Learning Agreement* form to the Engineering Erasmus+ Office. Afterwards it will be transmitted to the host University (partner in the Erasmus+ agreement). Submission of the Learning Agreement shall be made on time in order to respect deadlines set by the host University.

## **5. Disbursement of the scholarship and exams passed abroad**

In order to obtain the scholarship, the student attending a full year abroad shall achieve a minimum of credits as specified in art.3 of the University announcement.

In order to set up the "package recognition" as explicated in art.3, the student must keep in mind the following indications:

- a. It is essential that the student obtains at least 2/3 of the ECTS-CFUs of the corresponding discipline at the foreign University (examples: 8 ECTS-CFU for 12 ECTS-CFU). The remaining credits must be obtained from the foreign University in disciplines considered similar to the scientific-disciplinary sector of the discipline in question, or in subjects that are relevant to the specific discipline. Additional program integrations or tests are no longer allowed on site.

In the event that this is not possible, the student who only achieves 2/3 (or more) in the corresponding discipline of the ECTS-CFU provided for in Rome Tor Vergata, but not the whole amount, will have to follow the indications that each single course (as communicated by the Delegate) establishes for the achievement of credits in disciplines similar to that indicated on the Learning Agreement in order to complete the missing credits.

In order to calculate the ECTS-CFUs, in the foreign and Italian "packages" other activities different from the exams (course attendance, laboratory, internships, language courses and all that ECTS-CFU allowed from the study courses) with any expected credits can also be included, as long as they have been agreed before departure and are indicated in the learning agreement.

- b. Within the "package" mobility it is possible to carry out bibliographic research aimed at drafting the bachelor / master degree thesis for all students who have completed the exams required by their study plan.
- c. The procedure for the recognition of exams taken abroad is carried out in the context of the degree course in which the application is received. For this purpose the following is suggested:
  - Consult the website of the host University where the scholarship was awarded;
  - Download the programs of the courses that you intend to attend and have them approved, or confirmed, through the appropriate form, by the Coordinator of your degree course, who will coordinate with the Delegated Professors;
  - The student is free to request further recognition of equivalences during the Erasmus + scholarship at the partner University, as long as the request is put to the Coordinator of the degree course, or to the Delegate Professor, by e-mail. A link should be attached of the course which requires recognition, with indication of the program, of the number of credits, and of the hours of attendance in the classroom.
- d. In order to validate the exams taken or other formative experiences carried out abroad in the Erasmus + Program, the following is noted:
  - To apply for the recognition of the study period abroad in the framework of the Erasmus+ Program, students must obtain authorisation (nullaosta) from the Erasmus+ University office. This authorization will be issued by the said Office when the student has regularized his administrative position.
  - It should be noted that, as a rule, certificates and declarations related to exams taken may require significant technical transmission time. It is therefore preferable, if the Erasmus+ coordinator of the partner University allows it, to ask for a further certification of the exams taken, or alternatively, a copy of the certification authenticated with the University's registered stamp. If the delay in the transmission of the certificates compromises the participation in a graduation session or the assignment of other scholarships or other rights, it is advisable to communicate these needs in good time to Mrs Rita Ricci who, in turn, will demonstrate these urgencies to the Offices set up at the partner Universities.
  - The "packages" of the exams achieved abroad are formally submitted to the interested Degree course approval and forwarded directly to the students' Secretary of the Engineering Macroarea, that sees to the registration of the exams.

**Please note: This English version of the call is made only for publicity purposes. For enforcing the call, resolving any dispute and for all legal purposes only the Italian version is valid.**

## Table of Agreements and Erasmus+ grants available for the Macro Area of Engineering

**Academic Year 2019-2020**

DEGREE COURSE	PLACE	Duration in Months	Grants	Minimum language skills required according to the above-mentioned classification	Coordinator or Referral Person for the bilateral agreement
<b>ENVIRONMENT AND TERRITORY</b>					
<b>Please note:</b> The grants not assigned to Environment and Territory students can be assigned to Civil-Environmental Engineering students.					
Environment and Territory	UNIVERSITY OF APPLIED SCIENCES - TRIER www.fh.trier.de (Trier-Germany)	6	1	German: B1 declaration For attending English courses: B1 declaration	Prof Fabio Del Frate <a href="mailto:delfrate@disp.uniroma2.it">delfrate@disp.uniroma2.it</a>
Environment and Territory	TAMPERE UNIVERSITY OF TECHNOLOGY <a href="http://www.tut.fi">www.tut.fi</a> (Tampere-Finland)	10	2	Finnish: B1 declaration or English: B1 declaration	Prof Fabio Del Frate <a href="mailto:delfrate@disp.uniroma2.it">delfrate@disp.uniroma2.it</a>
<b>AUTOMATION</b>					
<b>Please note:</b> The grants not assigned to Automation Engineering students can be assigned to Computer Engineering students, with priority to the student of Robotics and Automation.					
Automation	LINNAEUS UNIVERSITY WWW.VXU.SE (Växjö, Sweden)	6	2	Swedish: B2 certification English: B2 certification	Prof Sergio Galeani <a href="mailto:galeani@disp.uniroma2.it">galeani@disp.uniroma2.it</a>
Automation	Universidad Politecnica de Madrid	10	1	English: B2 declaration Spanish: B1 declaration	
<b>CIVIL - CIVIL AND ENVIRONMENTAL</b>					
<b>Please note:</b> The grant of Metu not assigned to Civil and Civil - Environmental Engineering students can be assigned to Building Engineering, Building Architecture and Building Techniques students. The grants for Grenoble and Cantabria Santander not assigned to Civil can be assigned to Civil-Environmental Engineering students. The grants for Dortmund and not assigned to Civil can be assigned to Building Engineering, Building Architecture and Building Techniques students.					
Civil	UNIVERSITÉ JOSEPH FOURIER DE SCIENCES ET DE LA TECHNOLOGIE DE GRENOBLE (France) www.ujf-grenoble.fr	10	3	French: B1 declaration For attending English courses: B2 declaration	Prof Giulia Viggiani <a href="mailto:viggiani@uniroma2.it">viggiani@uniroma2.it</a>
