Erasmus Programme 2021-2027

Challenges

- Making the programme **more inclusive** by tripling the number of participants should not come to the detriment of the **quality** of Erasmus in terms of outcomes and impact;
- The **diversity of initiatives** provided (European Universities, blended mobility, digital skills and forward-looking fields, DiscoverEU, JM in other sectors than HE, etc...) needs to be aligned with the **simplification** advocated in the proposal;
- Striking a balance between **excellence and inclusion**: although inclusion can be seen an element of excellence, combining these objectives in concrete projects and activities has to be the priority.
